BENJIE B. PAHAMAMUTANG

SOFTWARE DEVELOPER & TECH ENTHUSIAST

About Me

A passionate Software Developer & Tech Enthusiast with hands-on experience building full-stack applications, queueing management systems, and point-of-sale solutions. Skilled in modern web technologies, database design, and integrating intelligent AI/ML tools into functional software. Known for creative problem-solving, clean code practices, and a drive to continuously learn and implement cutting-edge technologies that deliver seamless user experiences.

Experience

Software Developer | 2024 – Present

- Queueing System: Built an automated ticket generation and display management system using Python and Database integrations for real-time customer flow control.
- Teamtea POS: Developed a Point of Sale application featuring a dynamic menu customizer, real-time transaction logging, and automated inventory tracking using JavaScript and UI/UX best practices.
- AI Fitness Coach: Integrated intelligent exercise assistant features using Python and AI/ML models to track workout routines and deliver real-time feedback.
- Collaborated with the sales team to create the sales content for the promotion campaign of the Ingoude Company's 10th Anniversary.
